TEUTONS ADVANCE IN GALICIA

The Roumanians have invaded
Bulgaria.

On the upper reaches of the Danube between the fortified towns of Rustchuk and Turtukai, where the river begins its bend northeastward, leaving Bulgarian territory and separating Roumania proper from Dobrudja, the troops of Roumania have made their way to the southern bank of the stream.

Just how many men were thrown across the river is not disclosed in either the Roumanian or German official communications but the strategic value of the maneuver seemingly is two-fold.

Ninety miles eastward from Turtukai, which lies at the western extremity of southern Dobrudja, is Varna, Bulgaria's chief seaport on the Black sea. If sufficient men have been sent across the river and are sent along the Dobrudja-Bulgarian frontier toward Varna, not alone would the seaport be in danger, but the move would constitute a serious menace toward the isolation of the German, Bulgarian and Turkish forces, operating against the Roumanians to the north.

Simultaneously with the announcement of the crossing of the Danube, comes a report from Bucharest that a fresh attack along the entire front in Dobrudja has resulted in the defeat of the center and right flanks of the troops of the Central Powers.

In Transylvania, the Roumanians on both sides of the Great Kukul river have advanced against the Teutonic Allies, while westward in the vicinity of Orsova and near Petroseny, the Austro-Hungarians have captured positions from the Roumanians.

The fighting in Galicia, with Lemberg the stake, has resulted in successes for the Teutonic Allies northwest of Lemberg and for the Russians in the southeast. On the Brody-Zlochoff road the Teutons recaptured the ground lost last Saturday according to both Berlin and Vienna, and made prisoner 2,306 Russians, while in the Narayuvka and Zlota Lipa sectors the Russians repulsed vicious attacks of the Teutons, inflicting heavy casualties and capturing 1,600 men. In the Lutsk region of Volhynia a Russian attack was repulsed.

The troops of both sides along the Macedonian front apparently are continuing their attacks and counter attacks with no notable successes for either. Aside from bombardments which are especially severe on the Carso plateau, little fighting is taking place on the Austro-Italian front.

One person was killed and one injured and slight material damage resulted from the Zeppelin raid over East England Sunday night. The entire crew of the Zeppelin which was brought down in flames near London, perished.

The subject was discussed today by Secretary Redfield and Dr. H. Later the department will devise methods by which the standard can be made effective.

REV. A. A. TODD INSTALLED AS 1ST. BAPTIST CHURCH PASTOR

Services in Church Auditorium Monday Night Followed by Reception in Parlors of Church, With Many Friends Present to Extend Words of Welcome.

Installation services for the Rev. A. A. Todd, new pastor of First Baptist church, were held Monday evening in the church auditorium with Dr. T. O. Hardesty acting as moderator and Deacons Jerry Cox and James Stout and the Rev. George E. Nicholson assisting. Miss Rena M. Lazelle sang a solo. The welcome from the ministers of the city was spoken by the Rev. M. L. Pontius, pastor of Central Christian church, and to this brief address Rev. Mr. Todd replied in a felicitous manner.

In the church parlors a reception for the pastor and his wife was held at the close of the program. Rev. Mr. and Mrs. Todd were introduced to friends by Mr. and Mrs. Charles H. Story and in the receiving line were deacons and their wives. Refreshments were served.

The following occurred in a St. Louis church paper at the time of Rev. Mr. Todd's departure from that city:

"During the more than five years of his pastorate he has endeared himself not only to the members of the church but to the community as well. His hearty co-operation in all departments of the work, Sunday school, B. Y. P. U. and the missionary and benevolent enterprises has been a source of much inspiration. His efficient leadership and wise counsel will be missed greatly. Our prayers and good wishes go with him to his new field of labor, and we bespeak for him and his beloved family the hearty co-operation and loyal support which they so richly deserve.

"He has unreservedly sounded forth the burning gospel message and made the personal application very simple, by many appropriate and timely illustrations. Scores have found the Saviour thru having heard his soul stirring messages. It is with sincere regret that we part with him as pastor, yet we feel that God is guiding his action and desires his labor elsewhere."

CORRECT MISTAKE OF ELEVEN VOTES FOR BARR IN OGLE COUNTY

SPRINGFIELD, Ill., Oct. 2.—A mistake of 11 votes in the returns from Ogle county for Richard J. Barr, candidate for the Republican nomination for attorney general at the September primary, was corrected today by the state canvassing board. The county clerk of Ogle county made affidavit that he had returned Barr's vote as 1,732, but that it should have been 1,721. The canvassing board notified both Barr and Edward J. Brundage, his opponent and after a hearing this morning changed the figures.

The returns from Cook county have not been received. The canvass cannot be completed until these returns come in. The downstate returns have been tabulated and canvassed.

BAPTISTS REUNITE

Laconia, N. H., Oct. 2.—After 136 years of division the Baptists and Free Baptists of New Hampshire expect to consummate their reunion at the anniversary which will begin here today. In 1870 the first Free Will Baptist church in the world was formed in New Durham, N. H., by Benjamin Randall and six others, as a protest against the hyper-Calvinism then dominant in the Baptist churches. Now that Calvinism and Arminianism are no longer a denominational test in their body they are reuniting throughout the country. The reunion in New Hampshire is of peculiar interest because this state was the birthplace of the Free Will Baptists, who long ago dropped the "Will," and as Free Baptists became a body widely extended throughout the United States and Canada.

STRIKE TIES UP ATLANTA CAR SERVICE FOR THE NIGHT

ATLANTA, Ga., Oct. 2.—Street and suburban car service was discontinued again at six o'clock tonight because of a number of demonstrations and repeated interference with traffic during the day by striking motormen and conductors. Company officials said they feared damage to their cars or tracks might result from an attempt to continue operation tonight. They announced that traffic would be resumed tomorrow morning.

Service during the day was almost normal but several arrests were made on charges of disorderly conduct and two men were fined \$100 each in police court and bound over to the grand jury charged with pulling a motorman off his car.

ROBERT TILTON ESTATE SUES FOR BACK SALARY

Claim is Made That County Owed Deceased State's Attorney About \$1,300.

The estate of the late Robert Tilton, thru J. O. Priest as attorney, seeking to recover the sum of \$1,500 from the county, alleging salary unpaid. Several years ago the state legislature passed a law fixing the salary of state's attorneys in counties of not less than 30,000 and not more than 50,000 at \$3,500 per year. Another law provides that the state's attorney shall receive a salary of \$400 per year from the state, and during the lifetime Mr. Tilton it was his contention that he should receive \$3,500 from the county without reference to the \$400 from the state.

The county commissioners held the view that the law meant that \$3,500 should be the total salary and he was, therefore, allowed \$3,100. Mr. Tilton, in signing the payroll each quarter for his salary, made it a point to receipt "on account" as he believed that later on it would be shown that the commissioners' interpretation of the law was incorrect. It is based upon this contention that the estate is now seeking the collection of the back salary alleged to be due. Attorney W. N. Haigrove, by virtue of his office, is the legal representative of the board of county commissioners and must, therefore, go into court and defend the suit in which he really has a personal interest. The amount of salary said to be due is \$1,300 and the \$200 additional is added for court costs, etc.

ENROLLMENT FOR NIGHT

SCHOOL NOW
Superintendent Perrin announced Monday that the enrollment for the night school would be held at the high school building this evening at 7 o'clock. When the night school was first broached about 30 young men and women signified their intention to enroll. However, Superintendent Perrin says that what the school officials want is the actual enrollment. The enrollment this evening will decide largely whether or not it will be advisable to start a night school. Those who expect to enter should be at the high school at 7 o'clock this evening even if they do not intend to take up the work immediately so that it can be decided whether to open the school.

JUANITA BURR DIES IN CHICAGO FROM TYPHOID FEVER

Young Girl Became Ill Few Days After Family Left This City—Funeral Services Here.

The Burr family moved to Chicago for the winter months about three weeks ago and the third day after their arrival the daughter was taken with typhoid fever. Although her condition was serious, recovery was expected until late last week, when a telegram came to Mrs. Hubble apprising her of the child's critical condition.

Juanita Burr was thirteen years of age, a young girl of especially engaging manner and sweet spirit. Her untimely death will come as a very great shock to the many friends of the family here in Jacksonville. The remains will arrive this morning on the Wabash 7:15 train and will be conveyed to the Burr home on Mound avenue. Announcement of the funeral service will be made at a later time.

ORDERS INVESTIGATION OF MILK SITUATION

N. Y. ATTORNEY GENERAL MOVES WITH VIEW OF APPLYING REMEDY

Authorizes Investigation After Receiving Complaints from Dealers and Producers That Conspiracies in Restraint of Milk Trade Exist.

Albany, N. Y., Oct. 2.—A sweeping investigation of the milk situation in the state with a view of applying a remedy was ordered tonight by Attorney General Woodbury. He designated Deputy Attorney General Merton E. Lewis to conduct the inquiry and announced that application for the appointment of a non partisan referee to take testimony will be made to the courts at once. The investigation was authorized after the receipt of complaints by both milk dealers and producers alleging that conspiracies in restraint of the milk trade exist. The inquiry the attorney announces will be conducted under the so-called Donnelly anti-trust act, the provisions of which have been utilized by the dealers as well as the producers as the basis of charges that the other side is conspiring to restrain the trade.

The penalty provided by this law is a fine of \$5,000 for a corporation and a similar fine or a year's imprisonment or both for a person adjudged guilty.

No Cessation of Inspection

New York, Oct. 2.—In the face of a serious milk shortage in this city because of the controversy between the Dairymen's League and individual distributors, Health Commissioner Emerson declared emphatically late today there would be no cessation in the rigid inspection of the supply by his department. He asserted he was more interested in quality of milk than in quantity and that the standard could not be lowered no matter how acute the shortage became. Dr. Emerson declared reports received from inspectors for his department indicated that about 75 percent of the normal supply was received in the city today. John J. Dillon, state commissioner of foods and markets who has been empowered to make contracts for members of the league and by the leading milk distributors of the city asserted that the shortage would become more acute as the week advanced and that by Thursday the distributors would be receiving only about 15 percent of the 2,400,000 quarts which ordinarily come daily into the city. The distributors, however, were hopeful in keeping the supply up to at least fifty per cent of normal.

RAILWAY COMPANY FILES MORE OBJECTIONS TO PAVING

Claim Credit Should be Given for State Street Salvage—Probate Court Orders.

In the proceedings with reference to the pavement of West State street a motion by Bellatti, Bellatti & Moriarty for authority to file additional objections was allowed. The attorneys filed two additional objections on behalf of the Jacksonville Railway & Light Co. It is alleged that the proceedings are illegal because in making estimate the engineer took no account of the salvage that might be made from the property now in the street, constituting the present pavement and curbing; that he allowed 35c per yard for excavating and 65c per yard for combined curb and gutter without any reference to the salvage. Further it is alleged that the commissioner in spreading the assessment used one method against private property and another against the railroad company to the detriment of the latter.

In the estate of Ellen Chapin, petition for probate of will was received and the document was admitted.

In the estate of Alfred Dikis, the petition for probate of will was allowed.

PROTEST AGAINST CONFISCATORY ACTS

Mining Men Appear Before American Commissioners

ARE FIRST WITNESSES

Give Statement Showing Decrease in Output of Metal in Mexico Since 1912

PORT TAXES ARE INCREASED

ATLANTIC CITY, N. J., Oct. 2.—A committee representing fifty mining and smelting companies operating in Mexico, protested today to the American members of the Mexican-American joint commission, against what they called "confiscatory decrees" in that country and urged the return to the old methods of taxation.

William Loeb, Jr., representing the American Smelting & Refining company, headed the delegation. It was the first time witnesses have appeared before either the American or Mexican commissioners.

In the mass of statistics submitted was a statement showing the decrease in the output of metal since 1912.

They told the American commissioners that the port taxes on gold and silver had been increased four times what they were in 1912 and now a heavy tax was placed on lead, copper and zinc, where none had been imposed. They also placed before the commissioners a statement showing heavy increases in other taxes affecting the industry and characterized them as confiscatory since the low grades of a great quantity of the ores produced made impracticable the operation of mines under such conditions. Many forfeitures already have been forced, according to the commission.

The actual investment of the companies represented was placed at \$125,000,000.

Secretary of the Interior Lane made public the memorandum presented by the mining men and said the commissioners would confer with them again tomorrow. They came here at the request of the American commissioners.

The joint session of the commission earlier in the day was marked by the presentation by the Mexicans of a plan of border patrols which included the withdrawal of the American forces.

The Mexicans assured the American commissioners of their belief that their government would be able to carry out the promise they were prepared to make that in the future the military forces of Mexico would adequately safeguard the border. Details of the plan were not disclosed.

Those High Priced Islands.

According to dispatches from abroad the Danish parliament has passed the bill approving the sale of the Danish West Indies to the United States. The belief is expressed that the people will ratify the sale of the islands at an election soon to be held. The United States has already ratified the proposal and there is every indication that the agreement will be rushed thru and the sale made before the present year closes. Twenty five million dollars seems a high price to pay for these islands when it is remembered that they were once offered for about a fifth that amount. But the increase is very much in proportion to that of the cost of living, especially during these latter months of the present Democratic administration.

The Same Old Story

It is almost a hackneyed theme but one which certainly demands attention—what is the public to do about speeding automobiles? City papers gave space to reports of five or six accidents in which people lost their lives. Downstate papers told of other accidents and here in Jacksonville injury or property damage from accidents is of almost daily occurrence. Trimming hedges along the country roads, the elimination of sharp turns where the view is obstructed will help, but the only real remedy is in auto drivers themselves. Occasional accidents are inevitable, caused by circumstances over which drivers have no control, but this is not true in a majority of instances.

Berger Is Sustained.

Victor Berger is still a member of the national executive committee of the Socialist party, as the referendum intended to recall him failed by a vote of 8,040 to 11,332. The reason for the attack was the views of the former congressman, interpreted as militaristic. Mr. Berger is again a candidate for congress from Milwaukee but is appealing neither to the pro-German nor the extreme pacifist vote. The Socialist party holds strong anti-military principles but Mr. Berger does not seem to be an extreme radical on the subject—in fact, as a candidate he is conducting himself with a great deal of discretion.

The Battle With Prejudice.

The national colored citizenship rights congress is to meet at Washington this week with the hope of forming a nation wide organization of colored citizens to combat race and colored prejudices and discriminations. The conference will be under the auspices of the national equal rights league. The trouble about any open fight against race prejudice is that the activity tends rather to develop prejudice than to blot them out. Yet it is true that colored citizens in some communities do have this problem to face and it is one which requires a large amount of tact and discretion to meet. Under able leadership colored men are proving themselves equal to the task.

Rippling Rhymes
By WALT MASON

Vacations

"The toiler needs a good vacation, a time of rest and recreation," we hear the sages say; "for work, without an intermission, without a fortnight off for fishin', will make him old and gray." This year I shut down on my labors, and, emulating sportive neighbors, I toured, on pleasure bent; I basked beside some golden fountains, and climbed a bunch of snow-capped mountains, and slumbered in a tent. I thought that, to my work returning, my bosom would with zeal be burning, and I would cut much grass; refreshed by fourteen days of resting, I'd sail into my labors jesting and make things come to pass. Alas, the grind seems twice as dreary, and I am twenty times as weary as when I went away; the task ahead seems harder, bigger and, wanting all my old time vigor, I sigh, "Alackaday!" I do not care for more vacations; I do not care for more vacations, if I'm alive next year; of course, they are a thing of beauty, but they unfit a man for duty, and put him out of gear.

CHANGE IN CITY SCHOOL
DISTRICT BOUNDARY SUGGESTED

People Outside Limits Want to Send Children to Schools Without Tuition.

The board of education met in regular session last evening and transacted much routine business. A petition for a floor in the kindergarten room was heard and referred; a protest against the smoke nuisance was heard from Miller Weir; all cases were ordered weighed on the city scales; the president was instructed to confer with the county superintendent and township trustees regarding altering the district boundaries so as to admit certain school children to the schools. Various other matters were considered.

The Proceedings

The board met in regular session last evening with all members present except Members Black, Duncan and Rapp. Rev. J. F. Langton, president of the kindergarten board, was present and the courtesy of the floor was granted him. He expressed the thanks of the board for the use of a room for the purpose of the kindergarten but as the floor was concrete it would have to have a wooden floor before it could be used and as the enterprise was already in debt and with slender income it was unable to provide the improvement and the board was asked to do the same. The speaker said the cost has been estimated at \$18, to \$20.

Rev. Mr. Landis, vice president of the kindergarten board, spoke briefly in the same line. Member Rogerson said he thought part of the lumber necessary for the purpose could be found at the Washington building where a partition had been removed. Mr. Langton hoped this would prove an entering wedge which would eventually land the kindergarten system in the public schools. Referred to the committee on schools and grounds with power to act.

The appointment of Fred S. Barrows in place of Mr. Springgate, Miss Sibert as supervisor of art, Miss Lena Hopper, supervisor of music, Miss LaVelle at a salary of \$60 a month and Miss Maher at a salary of \$66 a month was formally announced.

From Miss Allie Goodrick a letter was read stating that she had safely arrived in Los Angeles and was pleased with her surroundings and asking the board to allow her a full month's salary for what she has done and was red. There was a feeling that the board would like to grant the request but the condition of the treasury required them to be just before being generous and salary for the time actually put in was ordered paid for, about two-thirds of a month.

Protest Against Smoke.

Miller Weir sent the board a vigorous protest against the smoke nuisance arising from the high school building stating that it lessened the value of property in the vicinity and caused immense hardship.

It was suggested that there was a smoke consumer which would save cost of itself within a year or two and abate the nuisance. It was in use in Barr's Laundry and at the C. P. & St. L. shops and could be seen at any time. Owing to the scarcity of hard coal several districts in Chicago had been permitted to use bituminous coal creating much smoke and the people were standing it. As the board had no funds with which to supply the desired consumer no action was taken.

The truancy officer's report was read stating visits he had made, and acts generally performed.

Supt. Perrin read a report of a tentative agreement between the board and anti-tuberculosis society regarding the cost of maintaining the open air school and the matter was referred to the committee in charge of the matter with power to act.

Will Decide About Night School

Supt. Perrin reported that this evening, Oct. 3, at 7 o'clock at the high school building, that the matter of the special night school would be settled when it would be ascertained whether or not there would be enough desiring such a school to justify the undertaking.

The matter of weighing the coal was brought up. There was a complaint of the dealers that this would be a hardship to take coal from a building to the city scales for weight but after some discussion it was decided that as the contractors used the Wabash yards which were near the routes to the buildings it would be small hardship to drive to the city scales with all the coal and it was so ordered.

Supt. Perrin said he had received a communication from Washington urging the saving of all waste paper that it might be used again. He said he had bought some gunny sacks for the purpose and had investigated the matter of a baling machine. He thought one of steel costing \$50 would in the long run be the cheapest as the wooden ones wore out soon and though it would pay for itself in a year or so. Referred to the superintendent with power to act.

Children Outside City Limits Seek Admission

A lengthy discussion then arose regarding admitting to the schools children outside the corporate limits. Frank N. Vieira was present and said he had a child and a neighbor, a poor woman, had four. He was but a short distance from the city school building but nearly three miles from the district school where his child might go and he much desired permission to have his child attend public school as in the past. Supt. Perrin said the rule had been to collect tuition of such

RETURN FROM EASTERN TRIP.

Miss Mary W. Price, Mrs. R. M. Hockenbush, Mrs. S. W. Babb and Allen McCullough returned to Jacksonville Monday evening from an automobile trip to the east. They left the city four weeks ago in Miss Price's Dodge car and traveled directly to Buffalo. Thence their course took them to New York City and afterward to Boston, where they were guests for a number of days at the suburban home of Miss Price's brother. Their itinerary took them thru the White mountains, the Berkshire hills country and to some other localities famous for scenery. A somewhat different route was followed on the return trip and the entire distance of 3,650 miles was traveled without an unfortunate happening of any kind. There was no machine trouble, no punctures, and blowouts numbered less than four or five. It was a trip that the whole party thoroughly enjoyed.

BLIND STUDENT

SUFFERS INJURY

As a result of an accident which happened Saturday Ralph Etienne of Goulterville, a student at the School for the Blind, underwent an operation at Passavant hospital Monday during which his right eye was removed. The young man, together with others, was walking in the country Saturday and when on a bridge east of the city someone driving a buggy or light wagon ran into him and the end of the shaft struck him in the eye, injuring it very severely. Prior to the accident the young man had had some vision in this eye and the happening is therefore the more unfortunate. It is said that the unknown person who caused the injury paid little attention and did not stop to see how severely the young man was injured. He was later brought to Jacksonville by two women who were passing in a buggy and the operation was performed as stated.

ONE YEAR AGO THE 3400 r.p.m. CHALMERS CAME INTO BEING; NOW 50,000,000 HAPPY MILES LIE BEHIND IT

Just one year ago the 3400 r.p.m. Chalmers was born.

September 30th is its Anniversary Day.

It was untried, unknown, looked a little strange because it was different, and nobody outside of four men knew what it could do.

These four men—the men who had dreamed the car—had little to say.

"What will it do?" they were asked.

"Get in and try," they replied.

And in three days' time every last Chalmers executive had experienced a thrill that was new behind the wheel.

They banged it around in city traffic, abused it on hills, ran it through broken fields, made it take hurdles they would never ask their own personal cars to take.

They were amazed and then they sat down and decided to build three times as many of these cars as they had ever built of any model in a single year before—\$22,000,000 worth.

Then behold the situation. Six months later these 18,000 cars were all built. Then 10,000 more were ordered.

And a few days ago we got word that 20,000 more are being built—48,000 of these 3400 r. p. m. Chalmers.

48,000 in all—a \$56,000,000 business in a single model!

So you see why we are proud to have a birthday party for the car.

Any car that has 50,000,000 happy miles of use behind it certainly has an interesting history and its birthday anniversary is an event.

Remember this is only its first birthday. So successful has the car proven that the Chalmers Company is continuing to build it right through into next year. So you're safe in getting a car now that won't be obsolete in the spring.

Consider the price, \$1090 Detroit.

Come in today. Attend the birthday party.

HUNDREDS PAY TRIBUTE TO MEMORY OF W. B. WRIGHT

Many Friends Show Respect to One of County's Best Beloved Citizens at Services Monday, Held at Murrayville Methodist Church.

That a life filled with the spirit of helpfulness and human kindness will long be treasured in the memory of neighbor and friend was well evidenced Monday when hundreds gathered at Murrayville Methodist church for one of the most largely attended funeral services yet known in that community, listening to words of tribute to Benjamin W. Wright and a life of humble usefulness and patient endeavor.

The Rev. C. S. McCollom of Payson, a former pastor of Mr. Wright, was in charge and the pastor took as his theme from scripture, the words of the Christ, "Let Not Your hearts be troubled, God is not mocked, for whatsoever a man soweth, that shall he also reap." The Rev. W. H. McGhee, present pastor of the church assisted with the services, which took place at 2:30 o'clock and were attended by Murrayville Hebrews and Odd Fellows in a body.

Odd Fellows Take Part

Fellow Patriarchs from Temple Encampment No. 19, Jacksonville, were present to the number of fifteen or more and these acted as an escort from the church to the cemetery. At the grave the services were in charge of Odd Fellows, with J. H. Dial acting as noble grand and S. F. Sooy as chaplain. Appropriate music was furnished by a quartet, composed of Mrs. C. R. Short, Miss Florence Short, George Coultas and J. H. Dial, with Willard Wesner at the piano. The many floral offerings were cared for by Mrs. Meda Andras, Mrs. C. J. Wright, Mrs. Harry Strang and Mrs. Clara Crouse. The bearers were six nephews of the deceased: C. J. Wright, Charles Wright, Penton Wright, Donald Strang, Harold Cunningham, Murrayville and George Cunningham, Woodson.

Burial was made in the new Murrayville cemetery, and the fact was mentioned that it was Mr. Wright who was one of the chief promoters of a new cemetery for his home community.

Among visitors from without the county were George Hughes of Kansas City, John Wyatt, Mr. and Mrs. Ernest Kamm and Mrs. Bert Bradshaw, White Hall; Lloyd Sale, Bloomington; Mr. and Mrs. William Chiles, Springfield; George M. Wyatt, Roodhouse; T. C. Hill and Mrs. Henry Bell, Winchester.

Among those who attended the funeral from this city were: R. A. Gates, Mr. and Mrs. Frank Strawn, Capt. and Mrs. John E. Wright, J. R. Hill, M. V. Wyatt, H. C. Busby, William Miller, Russell McPhail, Charles T. Mackness, J. T. Ellis and M. K. Wray.

Among those attending from the Odd Fellows fraternity were: T. M. Tomlinson, Herman Weber, Judge W. E. Thomson, F. M. Brewer, T. S. Martin, C. O. Bayha, J. Marshall Miller, J. H. Campbell, Allen Franz, H. B. Jaeger, W. J. Brown, W. I. Crabtree, J. H. Dial, Ralph I. Dunlap, John Deatherage. The following from the wives of the Patriarchs of which Mrs. Wright was a member also attended: Mesdames Atlanta Martin, Sadie Bayha, Anna Cobb and Alta McPhail Hankin.

Obituary Sketch

The following sketch of Mr. Wright's life was read by the pastor at the funeral:

Wiley Benjamin Wright was born on the Old Wright Homestead, about one mile southwest of Murrayville, October 29, 1853. He was the son of John Wiley Wright and Eliza E. Wyatt, and was one of thirteen children, five of whom are still living. They are Margaret Jane Ash, and Capt. John E. Wright of Jacksonville, Mrs. Sara Eliza Cunningham and Cyrus N. Wright of Murrayville and James L. Wright of Harrisonville, Mo. It was when then was Principal of Murrayville school in 1881 that he married Mary Emma Strang and to them have been born nine children, eight of whom are now living. They are Mrs. Grace Russell and Mrs. Maude Spainhower of North Dakota, Mrs. Pearl M. Doyle, Carey F., John Wiley, Warren Edward, Mildred E., and Benjamin, all of Murrayville. Soon after his marriage he removed to Greasy Prairie where he lived until 1894, when he came to Murrayville, where he has lived ever since. He departed this life Sept. 29, 1916, aged 57 years, 11 months, and 1 day. Ben Wright was a good man and he lived a good and a useful life, and this crowd of friends and loved ones who have assembled to pay the last tribute of respect and devotion to his memory realize that he is going to be missed from this community, as few other men would be missed. He was a man of ripe judgment who was often consulted by his friends, and he was never so happy as when he was counselling with his fellow men in an effort to do somebody some good. Ben didn't live for himself alone. He loved to touch elbows with his fellows, to work with and by and for them. He loved the truth and he used it and lived it and no man can say that Ben Wright ever spoke with a double tongue. He was a man of strong convictions, and when once convinced that he was right, he had the courage of

heart to stand by it, and yet he had the heart of a child. He professed Christianity somewhere during the pastorate of Brother Cadwell from 1898 to 1900, and was a loyal member of the M. E. church, living and dying in the simple faith of his reward at the end of the race. He was Supt. of this Sunday school one term, and served in various capacities on the Official Board of the Church. He was a loyal member of his Lodge, and ever tried to live up to its tenets of Friendship, Love and Truth.

A Loyal Citizen

If it had not been for the untimely energy of Ben Wright, Murrayville Lodge No. 415 I. O. O. F. would probably not be in existence today. He loved his church, his lodge, his political party and his family with a love that knew no waver. Ben was square and as true as steel. He loved his home and lived in close and secret communion with the various members of his family. One of his daughters said to a friend, "I don't know who I am going to tell the secret troubles of my heart to since papa's gone." In his last illness, when he realized that the end was not far off, he called one of his sons to him and said: "My boy, it looks like I was going to have to cross over and leave you. I am sorry I haven't more of this world's goods to leave you and if I had devoted less time to my friends and more to myself, I could have made more money and had more to leave you. But let me leave this one thing with you, my son, try to live a good straight Christian life, and try to do somebody some good. I don't owe any man a dollar, and no man can say I ever cheated him out of a penny."

The widow and the children and the relatives and the friends are going to miss Ben, for he was a friend, and the very spirit of his life was exemplified in that beautiful little poem by Sam Walter Foss:

"There are hermit souls that live withdrawn in the peace of their self content;
There are souls, like stars, that dwell apart, in the fellowship firmament;
There are pioneer souls that blaze their paths, where the highways never ran.
But let me live in a house by the side of the road, and be a friend to man."

"Let me live in a house by the side of the road, where the race of men go by—
The men who are good and the men who are bad, as good and as bad as I.
I would not sit in the scorner's seat, or hurl the cynic's ban;
Let me live in a house by the side of the road, and be a friend to man."

"I see from my house by the side of the road—by the side of the highway of life,
The men who press with the ardor of hope, the men who are faint with strife;
But I turn not away from their smiles nor their tears, both are parts of an infinite plan;
Let me live in a house by the side of the road, and be a friend to man."

"Let me live in my house by the side of the road, where the race of men go by—
They are good, they are bad, they are weak, they are strong, wise, foolish—so am I.
Then why should I sit in the scorner's seat, or hurl the cynic's ban?
Let me live in a house by the side of the road, and be a friend to man."

"See Virginia Pearson at Scott's Theatre Wednesday."

FIDDLERS CONTEST AT CHAPIN. At the old fiddlers' contest in Chapin recently Uncle "Luek" Huddleson was the stellar attraction, in fact, he was the sole attraction in this particular for here were no other entries. As a result Mr. Huddleson won all the prizes which had been offered and now has a bountiful supply of candy, cuff buttons, hard, roof paint, bill books, neck ties, tobacco etc. The audience was of the opinion that he earned the prizes because they applauded him so frequently that all the oldtime favorites were included in the lengthy program. Others who contributed to the program were Harvey Thompson, who gave some piano solos; Henry Madison, with his accordion; John and James Daniels with banjos. While the entries were not numerous, the program was greatly enjoyed.

GREAT BURLINGTON WAY ENTHUSIASM IS SHOWN.

Carl Weber Tells of Series of Conferences—Ottawa and Rockford Division to be Organized Friday.

Carl H. Weber, deputy county clerk, has returned from attending meetings of the Burlington Good Roads association in Berdan, Pontiac and Peoria. In all of these cities the meetings were very largely attended and great enthusiasm was apparent. Large attendance at the meetings is a certain indication of interest had in the association and the anxiety by citizens from various cities in the northern part of the state to have the trail pass thru their cities is the best proof of the recognized value of the trail in a business way.

The Peoria, Ottawa and Rockford division of the Burlington Way has successfully organized at a meeting held at the Jefferson hotel in Peoria. About 150 boosters from towns along the different routes wishing to be favored with official recognition worked continuously for their home towns. As a result of this activity the successful ones were Peoria, East Peoria, Washington, Metamora, Roanoke, Benson, Minonk, Rutland, Wenona, Lstant, Oglesby, LaSalle, Starved Rock and Ottawa.

The Ottawa-Rockford division will be organized next Friday at Ottawa and will be routed either by way of DeKalb or Rochelle. The officers elected today will meet at Ottawa at that time with Secy. A. E. Nissen to make all necessary arrangements to fulfill the obligations of the Burlington Way good roads association. The general supervisor of the division will be elected by the Ottawa club and D. S. Tempert of Minonk will look after the management of the Ottawa and Peoria part of the trail.

FLETCHER HOPPER'S CAR DESTROYED BY FIRE SUNDAY

Car Overturned When Wheels Struck Earth—Members of Family Fortunately Escaped Injury.

The McFarlan Six automobile of Fletcher Hopper was completely destroyed by fire near Hannibal, Mo., Sunday afternoon about 1 o'clock. The car overturned on a piece of newly graded road and leaking gasoline caused an explosion which set the car on fire. Mr. Hopper had the car insured but the amount of the insurance probably will not cover the loss.

Mr. Hopper with his wife and child and Mrs. Hopper's mother, Mrs. Robert Young of Springfield, and Mrs. Young's sister, Mrs. C. G. Smith of Ogden, Utah, were driving to Hannibal to spend the day.

A short distance this side of Hannibal they encountered a bad stretch of road, the only piece found on the trip. The road had recently been graded and Mr. Hopper turned out to avoid a mudhole. He followed the track which had been taken by other cars. However, the weight of the car pushed down the grading and the car went into the ditch and turned on its side in the weeds.

The occupants of the car were compelled to cut their way thru the back curtain and all escaped without injury. After Mr. Hopper found everyone safe he turned back to shut off the engine which was still running. He then discovered smoke coming from the front end of the machine. He quickly turned off the engine but as he did so the escaping gasoline exploded. Mr. Hopper was burned slightly.

The explosion set the car on fire and in a few minutes it was totally destroyed with the exception of the front wheels and they were damaged. Some clothing in the car also was destroyed.

FATIMA

A Sensible Cigarette

Such men seek smoke-comfort

WHEN YOU stop to realize the number of sound, conservative men who have changed over to Fatimas in the last six months, it surely indicates that Fatimas must offer something no other cigarette can offer.

Perhaps you haven't thought of it this way:

Do you know any other cigarette that is always cool and comfortable? Do you know any other cigarette beside Fatimas that leaves a man feeling fine and "fit" even after a long-smoking day?

It is these qualities that make Fatimas truly sensible.

MERCHANTS TAKE FIRST GAME OF CITY CHAMPIONSHIP SERIES

Defeat All-Stars by Score of 6 to 3 —Pitchers Battle Between Hartman and Trumbo.

The Jacksonville Merchants won the first game of the series for the city championship from the All-Stars at Nichols park Sunday afternoon by a score of 6 to 3. Despite the cool weather a large crowd witnessed the game and were well repaid for it was a ball game from start to finish.

It was largely a pitchers battle between Hartman and Trumbo. Had the playing been perfect it is probable the game would have ended in a tie or gone into extra innings as each team earned two runs.

Hartman held the All Stars to four hits and did not walk a man, while Trumbo yielded five hits and walked three men. Hartman struck out 11 men while Trumbo had four strikeouts to his credit. It was superior support that won the game for Hartman. Only once did the Merchants' defense weaken. That was in the second inning when "Hap" DeFrates let Johnson's pop fly slip thru his fingers with one down. Johnson then scored the first run of the game. That was the only one of the Merchants' errors that was costly.

For the Merchants DeFrates played a brilliant game at third while Wheeler speared a drive with one hand off S. Trumbo in the fifth with two men on that probably would have tied the score had it not gone away. Woodman made a great running catch off of G. Trumbo in the third while Christopher did excellent work behind the plate.

For the All Stars C. Wheeler at first was the bright star of the afternoon. Wheeler's team mates did some wild and weird pegging but he got most of them and made hard tries for all the rest. Brown at short despite his two errors played a great game and knocked down several base hits but one of his efforts went for naught as Weir was asleep at the switch and failed to cover second for the play. Young in center also pulled off several running catches that looked good for extra bases.

How the Runs Were Made
The All Stars scored the first run of the game in the second. Johnson was safe when DeFrates muffed his pop fly and stole second. He went to third on Weir's out. Hartman to C. Wheeler and scored on a wild pitch.

The Merchants came back in their half of the same inning and took the lead by scoring three runs. Christopher, first up, hit to right center for two bases. A Woodman beat bunt down the third base line and sending Christopher to third whence

took second when G. Trumbo threw wild to first. Hartman hit one to deep center for three bases, scoring A. Woodman. DeSilva hit one to C. Wheeler and was out at first. Hartman scoring.

That ended the scoring until the sixth when the Merchants put another run over. H. Wheeler was safe on Brown's wild throw. Christopher hit to Weir who erred and Wheeler took third and Christopher second. Wheeler was caught napping at third. S. Trumbo to G. Trumbo. A. Woodman hit to Weir who threw wild to first. Christopher took third on the play and scored on the over-throw.

The Merchants added two more in the seventh. Denny beat out a bunt down the third base line and took second when G. Trumbo threw wild to first. He took third on McCollister's out at first and scored when Weir let DeFrates hit get away from him. DeFrates took second on H. Wheeler's safety to short. Brown made a great stop with his bare hand and would have nailed DeFrates at second but Weir failed to cover the sack. DeFrates took third on Christopher's out at first and scored on Waffel's error.

The All Stars scored two runs in the eighth. Steward first up hit safely. G. Trumbo hit to DeFrates who stopped Steward at second. C. Wheeler muffed one thru McCollister for three bases and G. Trumbo scored. Waffel was out DeFrates to McCollister and C. Wheeler scored. Brown struck out. The score:

Pilmsoll's Mark.

Any sailor will tell you that the pilmsoll is a conspicuous mark on the hull of a vessel, usually an oval or ellipse of white paint with an arrow drawn through it to indicate the extreme water line when the ship has been loaded. As long as the pilmsoll mark shows above the water the burden of freight in the ship's hold is not too great for her carrying capacity. The curious word is the badge of immortality of a philanthropist, Samuel Pilmsoll, who was born in Bristol, England, in 1824. When he went into the coal business he learned of the horrible conditions under which the men of the British merchant marine had to work. Owners figured that it was cheaper to lose an occasional ship with all on board than to restrict the load and make the voyage reasonably safe. In order to thwart this rapacity Pilmsoll entered parliament in 1868. His persistent work resulted in the passage of the "merchant shipping act" in 1876 to prevent ships from going to sea in an unsafe condition.

Hetty Green's Firmness.

Hetty Green nearly brought Collis P. Huntington to ruin once. She had \$1,000,000 deposited in one of his banks and found that he was using the bank's money in investments that she regarded as ticklish. Besides, there had been deals in which she thought she had cause to make Huntington sit up and take particular notice of her. She appeared before an officer of the bank, a Mr. Stewart, and said:

"I'd like my money right away—not in checks; in cash, please."

"Is there no other way, Mrs. Green?" he asked, beginning to perspire.

"None," said she. "Cash, please."

She got it—after a scurrying of many bank messengers—in all kinds of money and in such bulk that four messengers had to carry it for her, while the rumor got out that Huntington was going to smash. As a matter of fact he did have a narrow escape.—New York World.

No Husband Is Perfect.

Don't expect all the virtues in one man. If he is good natured he may be lazy; if he is scholarly he may be cold; if he is thrifty he may be stingy; if he is generous he may be wasteful; if he is smooth he may be deceitful. The man who charms you with his immaculate appearance is likely to be something of an old maid; the man who is careful to pick threads off your skirt is prone to pick flaws in you; the man who takes an undue interest in the selection of your hats may take an undue interest in the bill which comes home; the man who before marriage jumps to open the door, lest your fingers be contaminated by the knob, may after marriage allow those same fingers to be contaminated by the washboard.—Woman's Home Companion.

A Valuable Tooth.

There is an amusing story of the economy necessary in the early days of the Norwegian theater at Bergen. It was in 1849, when Ibsen and Bjornson were creating the national drama. A lady had been engaged for the part of "second old woman" when it was discovered that her elocutionary powers were impaired by the fact that she had lost one of her front teeth. Impoverished as she was, the management came to the rescue and bore the expense of the necessary dentistry. When she retired, however, after two seasons, she had to leave the tooth behind her, the example of the dentist's art being the property of the theater. The management was too poor to part with it.

She Was One of Them.

Once a high school principal was having a dispute with one of his teachers, a vivacious young lady. She claimed that the word "man" meant mankind as a whole, while "men" always signified the masculine gender.

The principal maintained that there were exceptions and triumphantly quoted, "Though I speak with the tongues of men and of angels."

But the young lady answered demurely, "That won't do, for you see, both genders are mentioned there."—Ladies' Home Journal.

The Art of Carpentry.

How many common figurative expressions in our language are borrowed from the art of carpentry may be seen from the following sentence: "The lawyer who filed the bill, shaved the note, cut an acquaintance, split a hair, made an entry, got up a case, framed an indictment, impaneled a jury, put them into a box, nailed a witness, hammered a judge and bored a whole court, all in one day, has since laid down law and turned carpenter."

Wasted Labor.

Little Edna, who was watching the men working a pile driver in the lot opposite, said to her mother: "I'm so sorry for those poor men, mamma. They've been trying and trying to lift out that big weight, and every time they get it almost to the top it falls right back again."—Boston Transcript.

The Signs.

"Miss Gladys got no fewer than six gold headed umbrellas for birthday presents."

"She must be something of a reigning belle."—Baltimore American.

Not Much Resistance.

"Did the prisoner offer any resistance?"

"Only a shilling, your worship, and I wouldn't take it."—London Tit-Bits.

Princes and lords are but the breath of kings. An honest man's the noblest work of God.—Burns

The Old General Muster.

Under the old militia system that prevailed about seventy years ago the states were divided into districts, each one having a company to which all men of soldier age were required to belong and give a few days each year to military drill.

Every year there would be a "general muster," at which the various companies would gather and under the command of a plumed and bespangled officer would perform the various evolutions and go through the manual of arms that would strike with awe the surrounding crowd of women and children gathered to witness the heroic displays of fathers and brothers.

These general musters were great events in the times of our grandfathers. They were social as well as military and often adorned with feasts of warlike provender. In one of his speeches Tom Corwin told of a general muster in which the brave militiamen, with bayonet and sword, charged on a pile of watermelons and cut the red hearts out of the enemy.—Columbus Journal.

Quite Different.

A tenant of Lord Halkerton, a judge of the Scotch court of sessions, once waited on him with a woeful countenance and said: "My lord, I am come to inform your lordship of a sad misfortune. My cow has gored one of your lordship's cows, and I fear it cannot live." "Well, then, of course you must pay for it," "Indeed, my lord, it was not my fault, and you know I am but a very poor man." "I can't help that. The law says you must pay for it. I am not to lose my cow, am I?" "Well, my lord, if it must be so I cannot say more. But I forgot what I was saying. It was my mistake entirely. I should have said it was your lordship's cow that gored mine." "Oh, is that it? That's quite a different affair. Go along and don't trouble me just now. I am very busy. Be off, I say!"—American Law Review.

Difference in Complexions.

The difference in the complexions of people is due to the varying amounts of pigment or coloring materials in the cells of the skin. Very light people have very little pigment; very dark people, those with dark eyes and black hair, have a great deal of this coloring material in their cells. A great many people are neither light nor very dark. They have less than the dark complexioned people and more than the light complexioned people. When the hair turns gray it is because the pigment has disappeared. As this is due to the loss of this coloring material, dark complexioned people turn gray sooner than light complexioned people. The structure of the skin showing how these cells are made in layers can be seen by examining the skin with a microscope.

Water Birds.

Water birds, singular as it seems, are the only ones whose skins never by any chance get touched by water. So long as they are alive and long after they are dead they float with an air chamber all round their bodies, cunningly contrived of waterproof feathers closely overlapping each other. Thus, in a sense, water birds may be distinguished from all others by the fact that they never wash, though we can hardly blame them for that, because if water could penetrate between their feathers the poor things would never be dry.

"Yarbs" We Have Known.

What has become of the elderly lady who in the seventies and earlier always referred to an "herb" as a "yarb"? The word has gone out of use. About the meanest "yarb" was a bitter weed named "thoroughwort." Then there were camemille, dockroot and dandelion, in their miserable partnership, lobelia and catnip. These things were "steeped," and you took them or had them thrust upon you "for your blood."—Exchange.

Beans.

The bean is comparatively new as an edible. Our common bean is a native of South America and was introduced into Europe, whence it came to this country during the sixteenth century and now is represented by over 150 cultivated varieties.

Quite Likely.

"Miss Booful won't marry me. She's trying to sell stories to the magazines and says she's wedded to her art."

"Just hang around awhile, old boy, and the first thing you know she'll divorce her art for nonsupport."—Chicago Herald.

Meissonier Told Them.

Meissonier once at the opening of his pictures had none of women. A friendly critic was curious to know the reason. Meissonier replied, "They can paint themselves better than I can."

The Amateur Farmeress.

Farmer—Now let me see if you can milk that cow. Girl (by vocation barmaid, regarding the horns)—Which handle's for the milk and which for the cream?—London Punch.

Power of Love.

So long as we love we serve. So long as we are loved by others I would almost say we are indispensable. No man is useless while he has a friend.—Stevenson.

Jealous Thing!

Miss Plainleigh—See my new engagement ring? Don't you think my fiancé showed excellent taste? Miss Pryal—Oh, yes—in the selection of the ring!

You always make more and better friends by opening your heart than by opening your mouth.

Mrs. Benton Gets a Surprise on Monday Morning

She was just gathering up the clothes to start on the family washing when the door bell rang.

And what do you think was there?—A nice new electric washing machine from the Jacksonville Railway Co. Mr. Benton had told them to send it out.

"Well, I see you're beginning your washing," ventured the delivery man. "It won't take but a few minutes to set up the machine and then you can try the up-to-date way of passing Monday morning.

Result:—Mrs. Benton had her washing on the line by nine o'clock, the children's clothes and all—a big line full of clean clothes. And she wasn't a bit tired, either; nor was she in bad humor. She was laughing to think that she had finished so quickly.

(Mrs. Benton will iron for us next time. Watch Wednesday's Journal—this same space. If you have any doubts about these statements, call Mr. Mc Laren, either phone 580.)

SIDEWALK ORDINANCE AGAIN A COUNCIL THEME

Physicians Negligent About Reporting Contagious Diseases—Officers Reports Received

Sidewalk ordinances again occupied the attention of the city council at the session Monday morning. It was indicated that the trustees of Passavant hospital were unwilling to have a sidewalk put down in front of that property and further that Father Formaz objected to replacing the brick walk in front of certain property on the same street. It was decided that there was no other way but to advertise for bids for the work altho a further endeavor will be made to have the paving done without action on the part of the city.

The roll call showed all members present except Mr. Widmayer, who is spending a few days in Chicago. Under department reports Mr. Martin referred to the negligence of physicians in reporting on contagious diseases to the health warden. He recited several cases of scarlet fever in the second ward in support of his statement. Mayor Rodgers said that many a physician talked of the need of a new health ordinance whereas there was great laxity on their part in complying with the conditions of the statute already on the books. I was the sense of the council that it will be necessary to follow the law and

YOU'RE BILIOUS! LET "CASCARETS" LIVE! LIVER AND BOWELS

Don't Stay Headachy, Constipated,
Don't Stay Headachy, Constipated,
Stomach Sour.

Get a 10-cent box now.
You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach, sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.—Adv.

impose fines unless physicians give stricter attention to this matter, reports.

Mr. Cox referred again to the trouble with contractors who open the street pavements and fail to replace them in proper form. He said that he had called a number of instances to the attention of the plumbers but was still having difficulty in getting the work done properly. Mr. Vasconcellos reported extension of the water main on Superior avenue in preparation for the pavement on South Clay avenue and some general work in repairing valve boxes in progress.

Sidewalk Ordinances
Ordinances were read for sidewalks in front of certain property on South Sandy street, Lorton street, South Diamond street and West College street. It is a known fact that more sidewalk ordinances have been passed than can be completed this fall because all contractors are embarrassed by the lack of materials. It has been deemed wise, however, to pass the ordinances, and still others are in prospect so that the work can be commenced on them and completed in the spring if not finished up this fall.

The reference to the difficulty in getting materials brought out the fact that Mayor Rodgers had received a letter from the Ohio Sandstone company stating that it would be impossible to ship any sandstone curbing before November. The same thing applies to all kinds of materials. Engineer Henderson said that when any contractor receives a car of cement he divides it up with the other contractors and the supply lasts only a very few days.

Reports of Officers
Reports of officers were received: R. L. Pratt made report of the following collections: thru the city clerk's office, \$468; Jacksonville cemetery, \$32.50; Diamond Grove cemetery, \$61.50. The reports from the cemeteries of graves made were as follows:

By Harry Summers, Diamond Grove cemetery, 9; by John Pires, Jacksonville cemetery, 12.

The report from the water department, signed by W. H. Cobb, superintendent and Joshua Vasconcellos, commissioner, showed total collections of \$3,812.02. This sum was made up of rent, \$3,626.52; meters sold \$128; taps, \$45; flushing sewer, \$10; junk, \$2.50.

Charles P. Graff, reported balance in the general fund of \$3,931.41.

Miss Weller, city matron, reported as follows: 1 boy taken into county court and sent to the school at St. Charles; 1 boy placed on probation by the court; 1 girl sent to Geneva; three girls and two boys reported as not receiving the proper care at home; 2 girls reported as molesting passersby; 3 boys and 2 girls reported incorrigible. All of the cases have been investigated and the action seeming most desirable having been taken.

QUICK REPORTEE

Quick repartee is always enjoyed and here are a few cases in point.

At one time Abraham Lincoln was conducting a suit before a judge who had small brains and less knowledge of the law but was a noted politician. Mr. Lincoln saw fit to let the judge know a few things, whereupon the latter said, rather irascibly:

"Mr. Lincoln, what do you suppose I sit on this bench for anyway?"

"Well, your honor has the best of me there, I'll admit."

Forrest, the noted criminal attorney of Chicago, was cross examining an Irishman who was unwilling to give up what the noted lawyer wanted to know and always parried every question. Finally Forrest gave up in disgust and slamming his pencil down on the table said to the witness:

"Well, you are smart."

"If I wasn't under oath I'd return the compliment."

Jury and audience roared and even the sedate judge could hardly repress a smile and it took nearly fifteen minutes to restore order.

During the campaign of 1872 between Grant and Greeley in a New York theater a man appeared on the stage with a million dollars which he had secured dishonestly and conscience stricken cries out:

"It is a burden on my soul; how shall I get rid of it?"
A gam in the peanut roost cried out:

"Bet it on Greeley, you blamed fool."

The audience yelled and howled and wouldn't be quieted till the boy was brought on the stage before the footlights.

Mr. Roy Ickes of the Hudson Motor Car Co., Detroit, will be identified with R. T. Cassell as salesman for Hudson and Studebaker cars. Mr. Ickes will also look after the supply of accessories department of that concern which is growing very rapidly. Mr. Cassell has taken the agency for the Savage tire, made at San Diego, Cal., and it is a very popular medium priced tire, carrying a guarantee of 4,500 miles. Mr. Cassell has also taken the agency for the Goodrich tires.

Mud.

Once upon a time, only a few months after this terrible world war had begun, Private Bailey, a soldier in the ranks had stood for days in the trenches "somewhere in France." The cold rains soaked him to the skin; the mud was deep. He had had no rest. Weary and aching with rheumatic pains, he recalled the faith his mother had in Sloan's Liniment. He asked for it in his next letter home. A large bottle was immediately sent him and a few applications killed the pain, once more he was able to stand the severe exposure. He shared this wonderful muscle-soother with his comrades, and they all agreed it was the greatest "reinforcement" that had ever come to their rescue. At your druggist, 25c, 50c and \$1.00 a bottle.—Adv.
